

# INDEX TO VOLUME 10, 1967 AUTHORS

ABRAMSON, Arthur S. (see LISKER, Leigh)	1
AMMON, Paul (see SUCI, George J.)	69
BEIER, Ernst G., STARKWEATHER, John A. and MILLER, Don E. Analysis of word frequencies in spoken language of children	217
BRYANT, P. E. Verbal labelling and the learning of a complex discrimination by normal and severely subnormal children	36
BUSCH, Allen C. and ELDREDGE, Donald. The effect of differing noise spectra on the consistency of identification of consonants	194
COHEN, Stephen P., TUCKER, G. Richard and LAMBERT, Wallace E. The comparative skills of monolinguals and bilinguals in perceiving phoneme sequences	159
COMPTON, Arthur J. Aural perception of sentences of different syntactic structures and lengths	81
ELDREDGE, Donald (see BUSCH, Allen C.)	194
ELLIOTT, Lois L., HIRSH, Ira J. and SIMMONS, Audrey A. Language of young hearing-impaired children	141
ENGLER, Leo (see HANNAH, Elaine P.)	228
FUJIMURA, Osamu. On the second spectral peak of front vowels: a perceptual study of the role of the second and third formants	181
GAMLIN, Peter (see SUCI, George J.)	69
GOLDMAN-EISLER, Frieda. Sequential temporal patterns and cognitive processes in speech	122
HANNAH, Elaine P. and ENGLER, Leo. Juncture phenomena and the segmentation of a linguistic corpus	228
HIRSH, Ira J. (see ELLIOTT, Lois L.)	141
HOPKINSON, Norma T. Combined effects of interruption and interaural alternation on speech intelligibility	234
HUGGINS, A. W. F. Distortion of the temporal pattern of speech by syllable-tied alternation	133
LAMBERT, Wallace E. (see COHEN, Stephen P.)	159
LAWSON, Everdina A. Attention and simultaneous translation	29
LISKER, Leigh and ABRAMSON, Arthur S. Some effects of context on voice onset time in English stops	1
MARTIN, Richard R. (see SIEGEL, Gerald M.)	244
MASON, James A. and PETERSON, Gordon E. On the problem of describing the grammar of natural languages	107
MILLER, Don E. (see BEIER, Ernst G.)	217
PETERSON, Gordon E. (see MASON, James A.)	107
RACKSTRAW, S. J. and ROBINSON, W. P. Social and psychological factors related to variability of answering behaviour in five-year-old children	88
ROBINSON, W. P. (see RACKSTRAW, S. J.)	88
ROMMETVEIT, Ragnar (see TURNER, Elizabeth Ann)	169
SCHOLES, Robert J. Categorical responses to synthetic vocalic stimuli by speakers of various languages	252
SCHOLES, Robert J. Phoneme categorization of synthetic vocalic stimuli by speakers of Japanese, Spanish, Persian, and American English	46
SIEGEL, Gerald M. and MARTIN, Richard R. Verbal punishment of disfluencies during spontaneous speech	244
SIMMONS, Audrey A. (see ELLIOTT, Lois L.)	141
STARKWEATHER, John A. (see BEIER, Ernst G.)	217

SUCL, George J., AMMON, Paul and GAMLIN, Peter. The validity of the probe-latency technique for assessing structure in language	69
TANNENBAUM, Percy H., WILLIAMS, Frederick and WOOD, Barbara S. Hesitation phenomena and related encoding characteristics in speech and typewriting	203
WOOD, Barbara S. (see TANNENBAUM, Percy H.)	203
TURNER, Elizabeth Ann and ROMMETVEIT, Ragnar. Experimental manipulation of the production of active and passive voice in children	169
WILLIAMS, Frederick (see TANNENBAUM, Percy H.)	203
WOOD, Barbara S. (see TANNENBAUM, Percy H.)	203

## PAPERS

Analysis of word frequencies in spoken language of children. Ernst G. Beier, John A. Starkweather and Don E. Miller	217
Attention and simultaneous translation. Everdina A. Lawson	29
Aural perception of sentences of different syntactic structures and lengths. Arthur J. Compton	81
Categorical responses to synthetic vocalic stimuli by speakers of various languages. Robert J. Scholes	252
Combined effects of interruption and interaural alternation on speech intelligibility. Norma T. Hopkinson	234
Comparative skills of monolinguals and bilinguals in perceiving phoneme sequences. Stephen P. Cohen, G. Richard Tucker and Wallace E. Lambert	159
Distortion of the temporal pattern of speech by syllable-tied alternation. A. W. F. Huggins	133
Effect of differing noise spectra on the consistency of identification of consonants. Allen C. Busch and Donald Eldredge	194
Experimental manipulation of the production of active and passive voice in children. Elizabeth Ann Turner and Ragnar Rommetveit	169
Hesitation phenomena and related encoding characteristics in speech and typewriting. Percy H. Tannenbaum, Frederick Williams and Barbara S. Wood	203
Juncture phenomena and the segmentation of a linguistic corpus. Elaine P. Hannah and Leo Engler	228
Language of young hearing-impaired children. Lois L. Elliott, Ira J. Hirsh and Audrey A. Simmons	141
On the problem of describing the grammar of natural languages. James A. Mason and Gordon E. Peterson	107
On the second spectral peak of front vowels: a perceptual study of the role of the second and third formants. Osamu Fujimura	181
Phoneme categories of synthetic vocalic stimuli by speakers of Japanese, Spanish, Persian, and American English. Robert J. Scholes	46
Sequential temporal patterns and cognitive processes in speech. Frieda Goldman-Eisler	122
Social and psychological factors related to variability of answering behaviour in five-year-old children. S. J. Rackstraw and W. P. Robinson	88
Some effects of context on voice onset time in English stops. Leigh Lisker and Arthur S. Abramson	1
Validity of the probe-latency technique for assessing structure in language. George J. Suci, Paul Ammon and Peter Gamlin	69
Verbal labelling and the learning of a complex discrimination by normal and severely subnormal children. P. E. Bryant	36
Verbal punishment of disfluencies during spontaneous speech. Gerald M. Siegel and Richard R. Martin	244
